Introduction of a Data Link Oceanic Clearance Delivery (OCD) service in the Reykjavik CTA

The Reykjavik Oceanic Area Control Centre is introducing a Data Link Oceanic Clearance Delivery (OCD) service. The service is provided via VHF and satellite to ACARS equipped aircraft via network service providers ARINC and SITA and is implemented in accordance with the standard "Data-Link Application System Document (DLASD) for the Oceanic Clearance Data-Link Service" ED-106A. This standard is also frequently referred to as the ARINC Specification 623 for Oceanic Clearance.

Crew procedures are specified in the document "Reykjavik Data Link Oceanic Clearance Delivery (OCD) Crew Procedures". The document can be obtained from the ICAO European and North Atlantic (EUR/NAT) office website <http://www.paris.icao.int/> (Documents → NAT Docs → NAT OPS Bulletins).

The service will take effect 3 June 2010 at 0001 Coordinated Universal Time (UTC).
