## ATFM Procedures

With effect from the 22nd March 2001, departures from Iceland (BIRD FIR/CTA) entering the EUR region will be subject to any ATFM measures affecting their flight profile and managed by the Eurocontrol Central flow management unit (CFMU). Flights whose profile takes them into a regulated sector /aerodrome within the area of responsibility of the CFMU will receive a calculated take-off time (CTOT) via a slot allocation message (SAM). Reykjavik flow management position (FMP) provides a point of contact locally for information on the process and procedures applicable. The ATFM procedures applicable within the area of responsibility for the CFMU and published in the CFMU handbook, will be those applicable to departures from Iceland. Reykjavik FMP is located in the Reykjavik ACC and can be contacted on the following telephone numbers: +354 569 4294 or +354 569 4141.
